Andrea Amina Stölzl

The ONE consciousness

„Love is the reason of the whole Creation.“
(R. Field)

In her longterm studies with Sufimaster Oruç Güvenç, Amina, the photographer, learnt as follows: „from all kingdoms of nature, from stone to animal, from the planets logoi to the Cherubims, to the elementary beings and angels – it is mankind who is the centre of all these worlds.“

To be a human being and to be a photographer as well means to Stoelzl getting in touch with the essence of anything and anybody she meets. This means to practice patience and to be almost invisible until, sometimes in a real magic moment, something special unveals. Something that later on, beyond all words and descriptions, will take on a relationship with the spectator.

„Beyond her visible facade, nature is hiding a wider reality which we human beings do not even dream about.“
(O.M. Aivanhov)

NATURAL ESSENCE

„I died as a mineral and became a plant,
I died as plant and rose to animal,
I died as animal and I was Human.
Why should I fear? Why fear death?
Yet once more I shall die as a human being, to soar
With angels blest; but even from angelhood
I must pass on: all except God does perish.
When I have sacrificed my angel-soul,
I shall become what no mind ever conceived.
Oh, let me not exist! for Non-existence
Proclaims in organ tones ‚To Him we shall return.‘ “

Mevlana Dschelaluddin Rumi
